ADD ON PROGRAM

Microsoft (MS) Office Basics

Organised By

August 17th -22nd 2017

website: www.pims.org.in

ADD ON PROGRAM
MICROSOFT (MS) OFFICE BASICS

Title	Microsoft (MS) Office Basics
Dates	17-8-2017 to 22-08-2017
Course code	PIMS/ADP/UG/17-18/S1001
Training out comes	To enable students to enhance practical knowledge in MS office The students will be able to claim proficiency in word, excel and Power Point. This provides valuable distinction in entering higher education and opportunity to develop skills for work readiness.
Resource person	Mr. Roopesh Kumar, HOD, Dept. of Computer Applications, PIMS Mr. Raju Krishna Kishore, Assistant Professor, Dept. of Computer Applications, PIMS

Modules

S. No.	Course component	Hours
I	MS Word: Creating text documents, editing and formatting the documents, application of different features and tools, detection of grammatical errors in text document.	10
II	MS Excel: Introduction, Excel interface, understanding rows and columns, working with excel workbook and sheets, usage of excel tools, formatting data, seven basics excel formula.	10
III	MS PowerPoint: Features of PowerPoint, creating, customization and formatting of presentation, tools of MS PowerPoint- slide basics, texts and objects. Reviewing presentations.	10

Course Summary

The Digital fluency programme helps student to understand the basics of Internet, web browsers and search engines. This is a necessary skill needed for any field that the student ventures.

The course is designed towards enabling the students to learn the basic concepts of computer and basic knowledge of hardware, software, personal computer, computer networking and the basics of Internet.

This course is designed for students to gain knowledge of MS-Office Application which will enhance official communication skills. They will learn to use MS Word and Excel. Excel is used to analyse data, learn basic functions and formulae. They will use Excel sheets to learn the basic functions and formulae in excel and for preparing charts. Students will learn how to prepare Power Point slides for effective presentations and also understand the basic of animation. They also have been given an overview of cyber security, security policy and troubleshooting mechanism.

DIGITAL LITERACY

Course Title	Digital Literacy
Date	26 -10-2019 to 30-10-2019
Course code	PIMS/VAP/UG/19-20/S1004
Training out comes	Understanding the basic of computer components and database management system
	Students will be able to understand internet protocols and search engines
	Understanding the Networking and trouble shooting
Resource person	Mr. Roopesh Kumar, HOD, Department of BCA, PIMS Mr. Raju Krishna Kishore, Assistant Professor, Department of BCA, PIMS Mrs. Sahanashree K.S., Assistant Professor, Department of Biochemistry, PIMS

Modules

Units	Course components	30 Hours
1	Computer Basics: Understand various components of computer and terminologies, Types of hardware, software. Graphical User interface (GUI) based Operating system. Software testing life cycle. Usage of Hard drives. USB cartridges and trouble shooting. Understand basics of data base management system.	10
2	MS office basics: MS word: Understand word processing, create business documents using word processor and understand various tools and short keys in word processor. Understand the functions of MS office. MS PowerPoint: Basics concepts of presentation, Creation of presentation, preparation, and presentation of slides MS Excel: Basic elements of excel spread sheet, formatting cells, understanding basic tools, formulas, and functions.	10
3	Networking and Troubleshooting: Basics of Computer networks, Various terminologies, Concept of internet, Applications and troubleshooting, search engines, web browser features, Internet Protocols, methods of connecting to internet, search engines, e-mail messages, Instant messaging, use of social network sites, Networking troubleshoot. Basic of web designing.	10

Course Summary

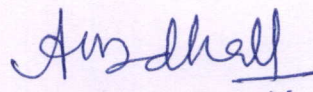

After this course, students gained knowledge and understanding in the following areas:

- Operating systems: Basic understanding of how to use a computer's operating system.
- File management: Ability to create, save, and organize files and folders.
- Internet and email: Knowledge of how to use the internet, send and receive emails.
- Word processing: Understanding of basic word processing software (e.g., Microsoft Word, Google Docs).
- Spread sheets: Knowledge of basic spread sheet software (e.g., Microsoft Excel, Google Sheets).
- Presentation software: Understanding of basic presentation software (e.g., Microsoft PowerPoint, Google Slides).
- Basic computer hardware: Awareness of different computer hardware components and their functions. Overall, basic computer skills training will provide an individual with a foundation for using a computer effectively and efficiently.

Course Summary

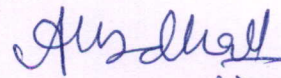

The computer fundamentals course is a beginner course with the aim to develop basic computer literacy among the students. This is a necessary skill needed for any field that the student ventures.

The course is designed towards enabling the students to learn the basic concepts of computer and basic knowledge of hardware, software, personal computer, computer networking and the basics of Internet.

This course is designed for students to gain knowledge of MS-Office application which will enhance official communication skills. They will learn to use MS Word and Excel. Excel is used to analyze data, learn basic functions and formulae. They will use excel sheets to learn the basic functions and formulae in excel and for preparing charts. Students will learn how to prepare Power Point slides for effective presentations and also understand the basics of animation.
